

Environmental Policy

HJS shall continually improve the organisational environmental performance via a synchronised, focussed team effort of all concerned, fully alive to and aware of our organisational social and ethical responsibilities.

Our efforts shall be structured on a ISO 14001: 2015 compliant Environmental Management System, underlined by our commitment on prevention of pollution related to all functions of HJS and conservation of resources and driven by employees trained in appropriate environmental practices.

We shall strive to comply with legal and other applicable requirements, and our environmental objectives and targets set shall be relentlessly pursued and regularly reviewed.
